Dashboard Services

Transforming Complex Governement Data into Compelling Visuals

Key Highlights

01 DARPAN gives State and District administration a tool needed to deliver real-time, dynamic project monitoring without the need for coding or programming through web services

02 Enhances analysis through data collection by consolidating multiple data source into one centralized,easy-to-access platform. Identifying trends in data to gain enhanced perspectives of the District level projects and allow users to prioritize the information they require

03 Availability of graphical and statistical report / multiple graph choices for administrative monitoring or informational purposes.

04 Projects can be ranked and rearranged to reassign display priorities. Projects can be maintained in view according to District as well as State review Priorities.

05 Regular data updation at predefined frequency through APIs.

Benefits

■ Availability of graphical and statistical reports/Multiple Graph Choices for administrative monitoring or informational purposes.

■ Facilitates information exchange among the stakeholders of the various level of Administration.

■ Regular update of Project Data according to Configurable Web APIs.

■ Personalized view of Projects at Ministries, State, Division as well as at District Level.

■ Projects can be ranked and rearranged to reassign Display   priorities.

■ Project can be maintained in view according to District as well State Review Priorities.

Features

Dashboard Settings
Configurable to Priortize the Important Projects.

Analytical Review
At a Glance to Drill Down Reports & Graphical Analysis of Project Statistics.

District Collector's Login
District Collector's Personalized login configured to access the Dashboard.

Access 24x7
Access to the Dashboard from anywhere anytime with Periodically Updated Data in Real Time.

Administrative Logins
State Administrator as well as District DIOs have personalized access to tinker Settings.

Prioritize Statistics
Rank Projects to View What is Crucial First.

Periodically Updated
View DaConstantly Improved to Provide the Best View of Services in the

Responsive
View Dashboard From Any Device.

Impact

- DARPAN is a great way to glean insights from raw data without having to code personally.
- DARPAN provides visual representation of key performance indicators (KPIs) and other metrics. The information can be in the form of graphs, charts, or maps and with option for users to further drill down the data.
- Schemes wise and district wise ranking may be generated as per the performance.
- DARPAN is easy to access, providing on-demand visibility and insight. There is no need for users to wait for monthly/weekly reports to check progress or respond to changing conditions.
- Well-crafted DARPAN dashboard show updated results for each project, saving precious time and resources.
- Well-designed DARPAN dashboard gives users ongoing performance measurement capabilities, so that they can quickly adjust their approach when circumstances call for change.
- Users have access to insightful and actionable information at-a-glance and they can make decisions and take action quickly. Reports can be shared quickly between users, allowing the free flow of information between key players.
- Dashboards provide a single pane visibility into all key project metrics. They serve as a central location for users to view and analyze up to date information. Any change in the underlying data or values is reflected in dashboards. This helps to identify fluctuations without having to wait for daily or weekly reports. Users are no longer need to code or prepare lengthy reports. DARPAN provide all the key values without having to code or analyze information separately.

Launch in Different States

CM Dashboard Punjab inaugurated on 27th December 2017.

Hon'ble Chief Minister Assam launched 'Assam DARPAN' at Bhawan on 27th October 2017.

Testimonials

Shri Jai Ram Thakur
Hon'ble Chief Minister, Himachal Pradesh

We have implemented DARPAN-CM Dashboard, ahead of other states, in Himachal Pradesh and are using it successfully for monitoring of important new initiatives of the Government like Jan March, Him Pragati, Rozgar Srijan and CM Announcements.

Shri Sarbananda Sonowal
Hon'ble Chief Minister, Assam

Assam Darpan is an important step taken by the government for open, transparent and accountable governance where details of key programmes and projects are made available to the people.The dashboard helps in measuring the outcome and impact of the schemes for taking appropriate and timely decisions and actions.

About NIC

National Informatics Centre (NIC) was established in 1976, and has since emerged as a "prime builder" of e-Government / e-Governance applications up to the grassroots level as well as a promoter of digital opportunities for sustainable development. NIC, through its ICT Network, "NICNET", has institutional linkages with all the Ministries /Departments of the Central Government, 36 State Governments/ Union Territories, and about 708 District administrations of India.

NIC has been instrumental in steering e-Government/e - Governance applications in government ministries/departments at the Centre, States, Districts and Blocks, facilitating improvement in government services, wider transparency, promoting decentralized planning and management, resulting in better efficiency and accountability to the people of India.
